

AGC

WEST TEXAS CHAPTER

THE CONSTRUCTION ASSOCIATION

Serving Greater West Texas since 1952

West Texas AGC is an affiliated membership chapter with Associated Contractors of America, Inc. providing commercial construction companies of related categories with information and resources to grow professionally and become more profitable.

Serving approximately 300 members in a membership territory that expands through 69 Texas counties. The membership includes general contractors, industrial contractors, civil-highway contractors, sub-contractors, suppliers and professional service companies.

Providing the key resources are consider our top priority. Information is provided through the use the Weekly West Texas AGC Newsletter that includes a comprehensive "Project List" of current jobs out for bids. On the weekdays, an email notice with a complete notice of new projects and addenda received along with projects bidding the next day are provided. In addition, the information is available 24/7 by log-in through the internet plan room service for all on-line projects. We know that safety is a priority for companies. The weekly newsletter provides safety tips and information with additional resources available from the chapter. Each week, industry information is distributed at critical times for members to have up to the date first-hand notice of key events, opportunities, and be able to act.
