Get Out the Construction Vote

We need your help to turn out the construction vote this November. Last week, AGC of America announced the creation of an [Election Center](#) where individuals can register to vote or check their registration status, obtain early voting information, request an absentee ballot, and view the candidates that will be on their November ballot. The center also includes [nonpartisan resources](#) for member companies, which can be used to remind employees about the importance of voting and participating in this year's election.

Provide information and encourage your employees to register and vote!

AGC CLC Leadership Development Conference

Member Fee: \$199 | Non Member Fee: \$299

AGC of America's CLC Leadership Development Conference brings together emerging construction leaders from across the country in various construction sectors to network, learn and share. Mid-level professionals have the opportunity to develop their leadership skills and gain information on CLC best practices and how to grow local CLC groups. It's more important than ever during this unprecedented time to provide resources to young leaders so that they continue to make headway in their career paths.

Solving Problems Before They Happen With A.I.

DATE: 10/29/2020
TIME: 2:00 PM EDT

Advances in artificial intelligence (A.I.) and machine learning are giving industry firms new insights into what can go wrong (and what can go right) on their projects. From providing advice on where to allocate resources to tips on scheduling to identifying real safety risks on jobsites, A.I. advisors are promising to deliver real competitive advantages.

During this webinar, our panel will let you know how to get past the hype around A.I. and find the benefits of these tools.

Construction scores a hat trick: Starts, jobs, backlog all rise

New data turned heads last week when new construction starts, jobs and backlog all notched solid gains to provide a glimmer of hope for the industry, following a summer of

worrisome trends that emerged in the immediate aftermath of the COVID-19 pandemic. (Note last paragraph)
