## West Texas AGC News & Resources

### Safety Tips -

Distracted Driving is more than texting and driving. Use today's guidelines in English and Spanish to emphasize company priorities that will develop safer driving habits for your employees while driving at work and personal time as well.

West Texas Chapter AGC has sample Cell Phone Policies and other information to assist you in developing your "Drive Safe Policy and Manual". For additional information contact [chughes@wtagc.org](mailto:chughes@wtagc.org).

### **Future proof your safety culture: Create a plan**

**February 17, 2021 | Virtual**

Join us for part one of this two-part safety series on preventing injuries in your workplace. Learn how to implement general safety programs and protect your employees. We'll share tips for on-the-job training, including new employee orientation, ongoing training and remedial training. We'll explore the important role that inspections play in injury prevention and how you can conduct on-the-job inspections. You'll also see how to download resources from Texas Mutual's safety resource catalog to help educate your employees

and enhance your safety programs. Part two of this series will cover what to do after an injury occurs and is offered on March 17.

## PRO Act Reintroduced in Congress | *Action Requested by WTAGC Members!*

On February 4th, the misleadingly-named Protecting the Right to Organize (PRO) Act was reintroduced in Congress. This legislation would dismantle the delicate balance of federal labor policy that has endured for decades by providing unions with additional economic weapons without regard to their detrimental impact on an employee's right to free choice and privacy and an employer's ability to effectively manage its operations regardless of whether it is a union or open shop firm.

Click "[Take Action](#)" to tell your members of Congress to oppose this anti-worker, anti-privacy, and anti-recovery legislation. Please tell your colleagues and peers in the industry to take action at [advocacy.agc.org/proact](http://advocacy.agc.org/proact) or by texting "AGCA" to 52886.

A segment from AGC CEO Stephen Sandherr statement follows:

"The new Pro Act is anti-worker, anti-privacy and anti-recovery..." "We view this measure as one of the single greatest threats to the viability of the commercial construction industry, its long history of offering advancement and opportunity to all workers and its ability to rebuild our economy and revive our nation. That is why we will take every possible step to ensure that the so-called "Pro Act" does not become law."

Please visit the [AGC website](#) for more information about this legislation.

## Attempts to Overhaul Cost-Benefit Analysis

President Biden's "[Modernizing Regulatory Review](#)"(link is external) memorandum may end up being one of the most consequential and yet underreported changes to the regulatory process. However—as AGC has reported throughout the Biden Administration—many of these orders by and large do not have immediate practical impacts and will take many months and even years before many of these orders become more detailed, final regulations. The Biden memorandum attempts to modify the

regulatory cost-benefit analysis, where significant regulations must demonstrate that the benefits “exceed” costs to justify the costs.
