

AGC
WEST TEXAS CHAPTER
 THE CONSTRUCTION ASSOCIATION

PLAN ROOM SERVICES
 WEST TEXAS CHAPTER OF
 ASSOCIATED GENERAL CONTRACTORS
 OF AMERICA, INC.

Our internet plan room is managed by West Texas AGC staff and powered by cProject. This provides West Texas AGC members **immediate** notification of projects as they are posted to review and/or download. Projects are monitored and maintained with up to the date addenda, memos, bidders lists, and other important changes you need to know.

wtagc.org

Electronic access to projects for General Contractors, Sub-contractor and Supplier Members, on the West Texas AGC internet plan room is made possible through our partnership with cProject. On line access is available to your office, home or mobile device. Plans, specifications, addenda, bidders list or project contact information is available for each project. By viewing projects in the chapter territory and beyond, parts of New Mexico and Oklahoma, you can market opportunities in areas beyond your own city, manage your sales force due to geographic locations, or consider how to manage prospects. We are working to assist you in expanding your networks and partners—providing opportunities while saving you time and money.

An **ESSENTIAL SERVICE** to the profitability of our members is a versatile plan room service. There are three plan room offices in the West Texas Chapter located in Abilene, Midland, and Wichita Falls. Each office is staffed full time to answer your questions about projects, and the many chapter services. Offices may be utilized by members to review plans from a member access computer and to perform take offs while in the offices. Each one is equipped with office supplies and capabilities to print plans for your personal use on the wide format printers, standard copiers or make CD's and flash drives as needed for further reference and access.

The West Texas AGC staff actively and diligently pursue project leads and opportunities, addenda and down to the wire, notices about projects are posted on line and then emailed to our members daily in both an ITB format and Daily Update. Our chapter works cooperatively with architects, engineers, and multiple private and public entities. This gives our members access to all of the current AGC Chapter partner's projects on cProject.

Whether you are looking for projects in your home city or want to expand to use all the technology options available, we can provide the services you need. Call us today.
